PROFILE

Master's student in International Software Systems Science with experience in Python, data analysis and machine learning applications. Interested in research projects involving data processing, audio analysis and deep learning.

TECHNICAL SKILLS

Programming: Python, SQL
Data Processing: Data cleaning, annotation, dataset preparation, visualization
Machine Learning: Deep learning basics, model evaluation
Tools: Git, Jupyter Notebook, Power BI

EDUCATION

MSc International Software Systems Science - Otto-Friedrich-Universität Bamberg (2024 - Expected 2026)
BSc Computer Science - Sir Syed University (2024)

PROJECT EXPERIENCE

International Software Systems Project - Designed and implemented a collaborative software system using modern development practices, focusing on architecture, data handling and teamwork.
AI Agent CRM Prototype - AI workflows for structured data processing.
Energy Data Analysis - Large dataset processing and dashboards.
Analytics Workflow Project - Python pipelines and reporting.

PROFESSIONAL EXPERIENCE

Junior Data Analyst - Techsol Solutions - Dataset preparation, dashboards, data evaluation.

INTERESTS AND PERSONAL PROJECTS

Independent development of web and mobile applications. Running a small side project Azpax (www.azpax.site) focused on experimental software, AI assisted tools and creative digital products combining personal creativity with technical experimentation.
